**Subject:** Let's try this again- STOPP pictures were missing

**Hi all**

**Since the avian flu scare Hickman's have closed off one of their entrance gates, and are now taking deliveries, etc at the far west end of their property (at 419th Ave). They have put up a 'dust free' sign and a 5 MPH limit sign.**

**There have been feathers documented at some of the homes near the Tonopah site, as well feathers showing up between the buildings at the Saddle Mountain RV Park. I don't know if any pix have been taken at the RV Park tho. Two pictures (attached) say 'feather-rain' and they were taken the day after Raul washed his black car. Earlier today I sent a link to Raul's YouTube video of Arlington which also included a short shot of feather/ manure/ chicken pieces smashed together that he found on Indian School Road by his house.**

**I have more pictures of feathers, burning manure from stacks, etc. from Arlington. These pictures are all from Tonopah. I'll send along the Arlington pix next.**

**Linda B**
